If you're not familiar with mining, here's how it works. The software basically maxes out your GPU's resources doing work. This makes your GPU use more electricity than it would normally use when idle, which in turn increases your electric bill. It also generates additional heat, so you'll need to ensure that your PC is properly cooled.

Can You Really Make Money Mining Bitcoin With Your Gaming PC?

Make money flipping new and vintage concert t-shirts for cash - one of the easiest things to flip for profit. Even vintage concert tees with stains and holes often sell for profit because fans can't get them anymore. Current bands may sell for less, but still a quick \$20 in your pocket is a great profit. Wool
